Good day! Good news! The month of April 2021 saw another eight new students and five ex-students joined J&J. Welcome! We are a bigger family now. Parents and teachers are great educators to our children. Great inventors and leaders are not born. They are inspired by great teachers like us. In the month of May 2021, together, let's help our children to express their heart-felt gratitude to their parents and teachers.

"An investment in knowledge pays the best interest"

A message from Teacher Shini,

The Grocery Stores theme in the month of April had been a great boost for all of us in J&J as we came out with lots of projects and crafts. In 5 kindness we had worked together from scratch in setting up our grocery store named "Kind Mart" in our classroom. It was fun and educational for us as a team. Children did pretend play, following the SOPs required in marts or shops.

Moreover, as a teacher, I am glad to see my kids reminding themselves to sanitize their hands each time they visit our Kind Mart during their free time throughout the month. Thank you parents who went the extra mile in preparing grocery items, shopping lists, and many more items related to the theme to help children connect with the real -life experience. Thank you mommies and daddies for working together in making learning a lot more engaging. Let's work together to make learning fun for our kids.

Thank you!

TODDLERS

From a tender age, little ones are taught to maintain focus on a given task for a few minutes. Every improvement begins with a little step.

As they grow, their attention spans tend to expand too. Structured activities as such go a long way in teaching focus. Seatwork can also be fun!

TODDLERS

J&J Grocery Store is opening soon! Little hands, busy minds are sticking price tags on the goods.

What do we need to make a healthy salad? Here's our shopping list. Let's fill our trolley now!

Learning to pick with tongs. With delicate precision, they were sorting pom-pom by their colours. A great way to strengthen their fine motor skills as well as to improve patience, eye-hand coordination and concentration.

No Plastic Day! Here we go, our DIY paper grocery bags in the making. Let's go green together!

A meaningful project to instil awareness on 3R.

That was a busy day. A very happening Wednesday! Teacher Juliann sparked excitement for learning with role-playing. Everyone followed the SOPs in the grocery store. 4 Joy children had a fun field day!

The kinetic sand is indeed magical, moldable, and mesmerizing sand! Children were fascinated by how the sand flowed through their hands.

Kinetic sand is a great way to to enhance their fine motor skills and social and emotional development. Children may find it calming and relaxing. This kinetic sand provides a range of sensory experiences for children as they engage their play with their imagination.

We worked together in this DIY project. Our fresh produce came in variety and thanks to our great teamwork and collaboration.

Look at what we have in our 5 Peace Grocery Store! We are ready for business. Hurry, come visit us!

A child's capacity for creative thinking and cognitive flexibility are closely linked to role play. Role playing allows children to act out and make sense of real-life situations.

KIND MART is just next to 5 Peace Grocery Store. We are getting ready with our business sign and window displays. So much of preparation and together, we learnt a lot.

We play a lot in our Mathematics lessons. Our body parts work hard to think and solve problems. Challenging tasks keep us moving. We learn well when lessons are fun.

Displaying the price on our goods can encourage customers to make a purchase as they know the price they should be paying. That's why we need to work on the price tagging.

Plants need water to survive and they draw water up from their roots through their capillaries. This celery science experiment is an incredible way to show this process.

A small step towards looking after the mother earth. Shopping bags are essential but no plastic bags, please! Children of 6 Goodness were hard at work with their paper grocery bags. 100% reusable and recyclable. One and only, uniquely 6 Goodness!

From sensory exploration to craft, 6 Faith children made a wonderful flower craft using variety of spices such as star anise, cloves, cinnamon, cumin and cardamon. Totally marvellous!

AFTER-SCHOOL ENRICHMENT

Vege Challenge time! Vegetables are nutritious but eating them, many will say NO! Our recipe of yummy vegetables soup won the hearts of many!

Make the best of the falling leaves and twigs and turn them into awesome self-portraits. From Science to Craft and we grow on our self-esteem every time we see our masterpieces.

Ever thought of any paper roll dumbbell? This could be the lightest one in the whole wide world! From trash to treasure, we transformed them. Cool craft, indeed!

Kazoos are usually made of metal, plastic, or wood. At Jack and Jill, we made our Kazoo musical instruments from recyclable toilet rolls. Children were so thrilled blowing into it.

Their humming voice supposed to turn into a musical sound. Hope these budding kazooists made that buzzing sound!

Form this Mind sparkler activity Children learn and read freely and independently at their own pace.

Kids Logic is an interactive brain teaser, which in cognitive development, visual stimulation and recognition, and key early learning concepts including memory, language, early reading, early mathematics, and creative thinking.

Dear parents and guardians,

Reading is a good hobby. The journey of a lifetime begins with the turning of a page.

Pick a book now and let the magical moments unfold!

Today a reader, tomorrow a leader.

Let's cultivate a good reading habit together. Be a good role model!
