We welcome all parents and students back to our preschool as we operate on a new normal basis, following the SOP guidelines and maintaining the highest form of safety. Thank you for your cooperation and support!

Anyone who does anything to help a child in their life is a hero to me.

- Fred Rogers

A message from Teacher Shini,

Merdeka! Merdeka! Merdeka! August is the month of patriotism for our kids in J&J. Although we have kids all around the world but we share the spirit of one Malaysia as we are united here as one family. We at J&J are delighted to experience the culture and tradition of Malays, Chinese, Indians and others for this past 4 weeks with exciting activities and event that took place in our school.

Diversity in something that is crucial for young learners to adapt and experience so that we could bring unity by respectively accept the deffernces among us in this world.

As educators, we are glad to bloom such beautiful platform for our children to learn and experience on their own in our J&J family. Happy 63rd Independence Day. Children and teachers in J&J had a great time together with lots of fun activities in conjunction with Independence Day of Malaysia. We laughed, we learnt, sang ample of Malaysian patriotism songs and had the chace to enjoy the variety of Malaysian foods. One month isn't enough for us to try out all the different traditions and beauty of Malaysian ethnics. August is a special month for Malaysia and we are glad to be a part of it in celebrating 63 years of Independence.

August Star Students

Congratulations to all our students!

• THEMATIC MONTH •

"Sayangi Malaysia"

In conjunction with Malaysia's 63rd Independence Day, we at J&J enjoyed learning about our country's culture

3 GRACE

Our 3 year old children had the chance to create their very own Chinese lantern, Indian lamp, Wau drawing as well as the beloved Jalur Gemilang

3 GRACE

They also stamped out their own batik designs and created their own congkak drawing

Children also learned number counting in a fun and creative way

4 JOY & 4 PEACE

The 4 year olds had the chance to do a flower craft with the Jalur Gemilang as the centre

They learned about x-ray and how does a fish bone structure look like

They also learned how to write Chinese calligraphy

They also learned about the Chinese culture such as Chinese chess, abacus and classical musical instrument

4 JOY & 4 PEACE

The 4 year olds also created dragon, a Chinese mythical creature of ancient times

They unleashed their artistic side by creating a batik painting using a candle wax

They created angklung, a traditional Malay musical instrument

They learned to create a model Mount Kinabalu, the tallest mountain in Malaysia

They learned the 'sh' word. Sheep goes baaa!

5 GENTLENESS

The 5 year olds learned to color and weaved a paper fish using the anyaman technique

They created the traditional Indian lamp which will light up the entire household during Deepavali

They also created a Jalur Gemilang badge which they can proudly pin it up their uniform

5 GENTLENESS

They also had some fun in playing the lompat tali, a common Malay traditional game played during past time

Most importantly at J&J, we always strive to let children enjoy their learning experience.

Here they are learning about all the days in the week in the form of a clock

5 KINDNESS

They drew and colored an ancient Chinese temple

Also had a hands on activity with anyaman

Using paper rolls, they created the tallest twin towers in the world, the Petronas Twin Towers. They were all so proud with their end products!

5 KINDNESS

They learned to match shapes on the board with real physical shapes

Creating the traditional Indian ornament

They had a little brain activity too, counting on numbers onwards and backwards

Learning about all the days in the week in the form of a clock

6 FAITH

The 6 year olds created their very own Jalur Gemilang in the form of a hand printed shape

They also created a traditional Chinese hat which farmers used to wear in ancient times

Unleashing their artistic nature, they also had the chance to draw the traditional Indian art, mehndi on a piece of paper

6 FAITH

They also drew many different kinds of batik patters and colored them with pretty colors, exactly like how a real batik would look like

WAU! Yup, exactly how they expressed their delight upon watching their wau creations come to life

They also created the puppets used in wayang kulit, a traditional form of puppet play of the Malay culture

6 GOODNESS

A creative way to learn Maths! Using pen and paper is all boring. So they learned the 2 multiplication tables in the form of pizza slices

They were very excited when it came to coloring the various ethnic groups in Malaysia alongside our very own Jalur Gemilang

They also created Chinese paper fan out of many shapes such as dragon and other patterns

TODDLER TREE

Starting them from young, our cute little toddlers were taught on the various Malaysian patriotic songs

They made their own peacock using paper cutting, arranging all the colors according to their own creativity.

They also unleashed their artistic side in coloring the lantern using their very own hands!

WELCOME TO OUR CIRCUS!!

(ENRICHMENT THEME)

Our Enrichment students were great!

First, they created their own puppet stage and hosted a spectacular stick puppet performance.

To go along with the show, they also created their very own popcorn snack!

Other activities that they had in their mini circus were:

walking on slippers tied to ropes
throwing rings onto bottle targets
and throwing rags into pan targets

They also created using recycle materials the 7th tallest tower in the world, the KL Tower

Under the guidance of Teacher Mahes, they all had the chance of testing out their culinary skills and becoming a Junior Chef. They made kuih sagu, a traditional Malay cuisine. Mmmmm yummy!

Junior Chef
